

The S440 is the latest proposal for thermally insulated sliding systems. Alumil created the innovative sliding system S440 according to the modern architectural trends and the requirements for higher energy-efficient systems and excellent performances. This system is the ideal solution for sliding frames in Western Europe.
The linear profiles' shape has been designed so as to minimize both the visible aluminum frame and the visible depth of the system. The performances of the system meet the most demanding requirements by combining high energy efficiency, safety and modern design and enable a large range of constructions that can contribute significantly to the buildings' energy efficiency. visibility and natural lighting.

- Minimum visible height 75 mm Q ability to use particular elegant interlock profile in just 39 mm , for maximizing visibility and natural lighting.
- Two sash profiles available for $45^{\circ}$ and $90^{\circ}$ assembling.
- Fiberglass reinforced polyamides of 40 mm width in the frame and $40 \mathrm{~mm}, 32 \mathrm{~mm}$ width in the sash profile offering to the system a high level of thermal insulation $\left(\mathrm{U}_{\mathrm{f}}=2,9\right.$ то $\left.4,6 \mathrm{~W} / \mathrm{m}^{2} \mathrm{~K}\right)$.
- Extra thermal insulation at the interlocking point by using PVC profile.
- PVC profiles for drainage with specially designed clipped cover that offers high watertightness and reduces visually the frame's depth according to the minimal design of the system.

TECHNICAL CHARACTERISTICS

| Visible aluminium face width | $111,5 \mathrm{~mm}$ |
| :--- | :--- |
| Frame height | 45 mm |
| Frame width | 103 mm |
| Sash height | 75 mm |
| Sash width | 44 mm |
| Interlocking profile width | $39 / 78,5 \mathrm{~mm}$ |
| Sash weight | Up to 120 kg |
| Glazing | 32 mm |
| Insulation | Polyamides 40 mm <br>  |

## TYPOLOGIES

## Horizontal sliding

Two sash sliding window

Two sash sliding window with fly screen

Three sash sliding window

Two sash parallel sliding window $90^{\circ}$ cutting

Three sash sliding window with fly screen

Two sash sliding window $90^{\circ}$ cutting, with fly screen

CERTIFICATES

| C39 | Air permeability EN 1026, EN12207 | CLASS 3 |
| :---: | :---: | :---: |
