

The system SUPREME S77 is ALUMIL's proposal for advanced insulating casements, with modern flat design which meet the high standards of private and public buildings in Western Europe. It is the ideal solution for projects that require high performance and maximum safety.

Furthermore, the system offers minimal design for windows & patio doors with the concealed sash and fittings. The SUPREME S77 satisfies the demanding levels of thermal insulation, water tightness performances which in combination with sound reduction, make it ideal for the most demanding projects.

- High thermal insulation value $U_{\epsilon} \ge 0.85 \text{ W/m}^2\text{K}$, certified by ift Rosenheim Institute.
- Visible aluminium face width 93 mm and only 67 mm for concealed sash.
- Maximum watertightness with 3 levels of EPDM gaskets and co-extruded EPDM and foam gasket.

- Specially designed low threshold for easy access for people with disabilities.
- For all typologies of hinged windows and patio doors.
- Wide range of sill profiles available.
